

CSR Statement for Mythe Farm, Mythe Barn, Garlands Leisure and Garlands Corporate.

‘Working globally, acting locally’ – we are all about people and spaces!

Mythe Farm is dedicated to the global community and environmental sustainability through best practice and community engagement initiatives.

As the ‘big heart of England’ we engage with our community by holding fundraisers for the local school, working with the regional scouts and holding Jubilee Summer Balls.

Taking environmental responsibility seriously, our policy to be as green as possible. Our ground-breaking initiatives include:

- Releasing staff to lead overseas science expeditions in the Amazon
- Having a zero landfill policy on all waste
- Planting 12,000 trees on site to offset our carbon emissions
- Having enough solar panels to cover the electric used on site and feeding the national grid when not
- Nominated for an award for ‘best conversion of an existing building’ by the Local Authority Building Control

Mythe Farm really is ‘acting globally and working locally’ to create a rewarding and inspiring environment to live, play and work in.
