CASE STUDY - Conference and Activities

NISSAN

Event Brief

The Fleet Marketing Manager for Nissan needed an inspiring, high quality venue that could also provide on-site team challenges as part of their quarterly meeting.

Delivery

Utilising the light and airy Oak Barn as the meeting space with full A/V in the morning this was followed by a variety of energising team activities before all 30 delegates headed into Birmingham for an overnight and celebratory meal.

With one of their latest fleet models on show as they entered the barn, the sumptuous smell of pastries and coffee soon refuelled delegates for the headline indoor session.

A high quality buffet lunch set the teams up for the afternoon of challenges and high octane activities such as kart racing, quad bike treks and crossbow shooting.

Outcomes

The client and delegates left engaged, ecstatic and energised for the business months ahead and are already discussing their next booking!

Client Testimonial

"Please pass on our thanks to all your staff at Mythe barn, everyone was really helpful and nothing was too much trouble. If I get any say in choosing venues in the future, I will definitely be recommending we come back!"
